Profile

I am a passionate frontend web developer with expertise in HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript, and React. Recently completed a 150+ hour internship at 9AM Solution, where I developed a complete HR module UI for an HRMS system. I'm a fast learner with experience in real-world projects, also exploring the MERN stack to become a full-stack developer. I have additional skills in PHP, MySQL, SEO, and MS Office, Canva (UI design, posters, presentations), making me adaptable in both development and technical support.

Education

B.Sc in Computer Science & Engineering, *Green University of Bangladesh*
Pursuing final year with a focus on programming, frontend development, and software engineering.
CGPA: Currently Improving / 4.00

10/2021 – Present
Narayanganj, Bangladesh

Higher Secondary Certificate, *Uttara Model College*
Completed Higher Secondary Education (Science) at Uttara Model College
GPA: 4.50 / 5.00

2018 – 2020
Uttara, Sector-06, Rd -10, House-07, Dhaka 1230

Secondary School Certificate, *Aftab Uddin School and College*
Completed my secondary level Aftab Uddin School and College with a focus on Science
GPA: 4.23 / 5.00

2015 – 2017
Bhagalpur, Bajitpur, Kishoreganj, Bangladesh

Projects

🛒 **DigiKart – Gift Card & Game Top-Up Platform,**
Dynamic Gift Card Platform Featuring OTP Login and SSLCommerz Checkout ⧉
Role: Full Stack Developer
Tech: PHP, MySQL, HTML, CSS, JavaScript, PHPMailer
- OTP login & password recovery system
- SSLCommerz-integrated checkout
- Admin dashboard for gift/game package management
- Downloadable digital gift cards with timers

10/2024 – 03/2025

👔 HRMS – Human Resource Management System,   06/2025 – 07/2025
Internship Project: HR Management UI Using React & Tailwind CSS
Role: Frontend Developer (Internship Project)
Tech: React, TypeScript, Tailwind CSS
- Developed full HR module UI from scratch
- Reusable components for employee, attendance, and performance tracking
- Designed with responsiveness and UI/UX best practices
- **Internship Duration:** 150+ hours at **9AM Solution**

🛍️ Fashion--House(Online Shop),   07/2025 – 07/2025
Modern Fashion E-commerce UI Built with HTML, CSS & Tailwind CSS
- Developed a responsive frontend layout for an online fashion store
- Designed product grid, filters, hero section, and call-to-action components

Current Learning Goals & Future Aspirations,
Focused on MERN Stack Mastery, API Integration & Full-Stack Development
- Learning MERN stack (MongoDB, Express.js, React, Node.js)
- Exploring Next.js for full-stack frontend apps
- Improving API integration skills and deployment experience

Languages

Bangla
Fluently spoken and written, with strong communication.

English
Proficient (both written and spoken)

Research

Undergraduate Research Project, *Implementing Chain-of-Prompting for Few-Shot Text Classification in Low-Resource Languages* (NLP)
📅 Duration: Ongoing | 🎓 Green University of Bangladesh

02/2025 – Present
Green University of Bangladesh

📌 Exploring prompt engineering techniques to enhance text classification accuracy in under-resourced languages   04/2025 – Present Green University of Bangladesh

📌 Focus on Few-Shot Learning using Chain-of-Prompting in NLP pipelines

📌 Leveraging large language models (LLMs) to improve performance with minimal labeled data

📌 Aims to solve the challenges of low-resource NLP using modern prompting strategies
